

INSTALLATION DIAGRAM

AR70S® SICILY SHOWER PANEL

1. Rough in the hot and cold supply pipes as shown
2. Secure upper and lower fixing brackets to the wall in relation to mounting plates on the rear of the shower panel.
3. Support the unit at the finished position and install the flexible supply pipes
4. Offer the unit to the wall slightly above the mounting brackets and slide down until the vertical seals attached to the unit are compressed against the wall
