MODEL: K200i FREEDOM CONTROL

Features
– RF Wireless control provides user convenience up to 50' from generator location.
– Eliminates need to bury control cables inside walls or drill holes in wall surfaces.
– Large color display offers quick and easy adjustment of steam bath settings.
– Control kit includes wall mounted dock with integral sensor and on/off button, RF communication hub and separate 120V charger base.
– Control operates all steam bath functions and the following options: Chromatherapy Lights, Fragrance Injector pump and EvenSteam™ Air Circulation Fan.

Installation
– Freedom Control dock with integral sensor mounts inside steam room.
– RF communication hub plugs into PC board inside steam generator and mounts on wall near generator.
– Required steam head must be ordered separately in desired finish.

Item Number:
